

# WOOD

Kartell's wood products are FSC™ certified. FSC certification is internationally recognised as the forest management system that has the most positive impact not only on forests but on the market and on people too.

The FSC mark on our products tells you that the raw wood materials from which they are made are sourced through a supply chain that rigorously respects the environmental, social and economic standards required by the Forest Stewardship Council™, the international NGO that has been promoting responsible forest management for over 25 years.

Since the wood we use is a natural material, it may display differences in colour and grain. These variations are typical of real wood.
